

JJAZZ[®] 2MA

FLAME RETARDANT PERFORMANCE SYSTEM

DATA SHEET

JJAZZ[®] 2MA-Non-Halogen Flame Retardant Performance System

Product Description

JJAZZ[®] 2MA Flame Retardant Performance System is a highly effective FR package utilizing unique amino phosphate flame retardant chemistry that is based on proprietary technology combined with a synergistic additive. **JJAZZ[®] 2MA** allows materials to consistently meet moderately difficult flame test standards such as **UL94 V0**. **JJAZZ[®] 2MA** is designed for use in environmentally friendly plastics applications. **JJAZZ[®] 2MA** is non-toxic and non-corrosive, offers excellent hydrolytic stability, has effective char forming, low smoke characteristics and is easily compatible with UV stabilizers. **JJAZZ[®] 2MA** does not contain any heavy metal or gaseous halogen by products. The most recognizable feature of the **JJAZZ[®] 2MA** FR Performance System is its self-contained catalyst system, thus allowing for an overall lower FR use level and an improved physical property profile to the composition.

Applications

- Polyolefin plastics where efficiency at lower typical loading levels is a key consideration.
- Solvent based coatings, adhesives and paints
- Epoxy Compounds & Composite Materials
- Elastomeric Rubber applications
- In most applications loading levels of 28-34% achieve **UL 94 V0** ratings (1/16" burn bar), depending on final formula and base resin or chemistry used.

Typical Properties	Typical Values
Appearance	Finely divided, free-flowing off-white powder
Specific gravity	1.30
pH	7.2
Bulk Density (g/l)	400
Decomposition (5%, nitrogen)	>240°C

Available in various particle sizes to fit many applications (2MA1- 6micron, 2MA2- 2.5 micron, 2MA3- 12 micron)

Health & Safety Information

Product health and safety information may be obtained from the Material Safety Data Sheet (MSDS). For a copy, please call 440-354-2551 or email at: kara.orpritz@jji-technologies.com. Before using any product, a customer is advised to review the MSDS of a respective product.
